**Governor Doyle approves Greenfield Avenue reconstruction project**

As part of his ongoing "Grow Wisconsin" initiative to invest in Wisconsin's infrastructure and stimulate our state's economy, Governor Jim Doyle has approved a \$6.8 million contract for reconstruction of Greenfield Avenue (WIS 59) in Waukesha County.

This work will consist of widening WIS 59 from a 2-lane rural road to a 4-lane divided urban road between WIS 164 and Barker Road (County Y) in Waukesha County.

"The existing road is deficient in many ways from pavement condition to traffic capacity. We are going to provide a smoother ride, improve the carrying capacity of this undersized facility, and increase sight distances to make this a safer road to travel on." said Al Gilbertson, project manager with the Wisconsin Department of Transportation (WisDOT).

Musson Brothers, Inc., is the primary contractor and will maintain traffic on WIS 59 by staging the construction. Flagging operations may be used during the course of construction.

Work is scheduled to complete by November 30, 2007.

State funds will pay for 24% of the project, with 76% paid for by federal funds.
